

KORUKONDA SNEHA SRI

B.Tech (Artificial Intelligence & Machine Learning) Student

Email: snehasrikorukonda@gmail.com **Phone:** 7013868752

LinkedIn: linkedin.com/in/snehasri-korukonda

GitHub: github.com/sneha-korukonda

Portfolio: sneha-korukonda.github.io/snehasri-portfolio

Address: Anakapalli, Andhra Pradesh

CAREER OBJECTIVE

Motivated B.Tech (AI & ML) student with a strong interest in data analytics and practical technology applications. Looking to apply my knowledge of Python, Java, data visualization, and machine learning in a reputed organization, grow through real-world experience, and build a strong career in a responsible and challenging position.

EDUCATION

Institution	Qualification	Duration	Score
Dadi Institution of Engineering and Technology (Anakapalli)	B.Tech (AI & Machine Learning) — Ongoing	2023 – 2027	7.9 CGPA
KGBV Junior College (Makavarapalem)	Intermediate — MPC	2021 – 2023	69%
Sri Vyshnavi E-Techno School (Anakapalli)	SSC (10th Grade)	2018 – 2020	98%

TECHNICAL SKILLS

- Programming: Python, Java, SQL, Machine Learning (basic level)
- Data Analytics: Data Visualization, Data Analysis, Machine Learning
- Tools & Technologies: Git, GitHub, VS Code, Google Colab, Streamlit, Arduino, Sensors
- Web Development: HTML, CSS

PROJECTS

Student Performance Prediction

Built a machine learning solution in Python to analyze academic data and predict student performance. Applied preprocessing, feature engineering, model training, and evaluation; Random Forest achieved 98% accuracy.

Blockchain-Enabled Explainable AI Framework for Fake News Detection and Content Verification *(Ongoing)*

Developing an AI framework for fake news detection with Explainable AI for transparent predictions and Blockchain for secure content verification. Currently working on model development and system integration.

Smart Dustbin Using Arduino

Created an Arduino-based smart dustbin using sensors to automate lid operation and support a more hygienic, touch-free waste-disposal experience.

INTERNSHIPS

Completed the following virtual internships to gain practical, industry-relevant exposure across cloud, mobile, data, and AI domains:

- Cloud Virtual Internship — Apr–Jun 2025
- Android Developer Virtual Internship — Jul–Sep 2025
- Process Mining Virtual Internship, supported by Celonis — Oct–Dec 2025
- Ethical Hacking Virtual Internship — Jan–Mar 2026
- Generative AI Virtual Internship — Apr–Jun 2026
- DataPro Agentic 13 — Apr–25 May 2026

CERTIFICATIONS

- LinkedIn — Microsoft Azure Machine Learning
- DataCamp — Introduction to SQL
- DataCamp — Introduction to Deep Learning with PyTorch
- NPTEL — The Joy of Computing Using Python
- Quantum Fundamentals
- LinkedIn — AI Engineering Essentials, Navigating Tech Revolutions

WORKSHOPS

- AWS Workshop — completed hands-on learning and practical exposure to AWS concepts
- DevOps Workshop — gained hands-on experience with DevOps concepts, tools, and workflows

ACHIEVEMENT & COMMUNITY SERVICE

Ayushman Bharat Health Account (ABHA) Community Service: Completed an approximately eight-week community service activity supporting people with ABHA enrollment. Participated in door-to-door outreach and guided residents through the ABHA process.

RESEARCH PAPER

AI-Based Android Malware Detection Using Hybrid CNN-LSTM Architecture

Researched CNN-LSTM based Android malware detection using opcode/API-call features optimization techniques.

HOBBIES AND INTERESTS

- Listening to Music — helps maintain focus and a balanced mindset.
- Dance — supports discipline, creativity, and effective time management.

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
